

Date	04 July 2026
Team ID	SWTID-2026-5525
Project Name	Visualization Tool for Electric Vehicle Charge and Range Analysis
Maximum Marks	

An interactive Electric Vehicle Analytics Dashboard was developed using Tableau Public to analyze electric vehicle data through different visualizations. The dashboard provides insights about EV brands, charging infrastructure, vehicle performance, pricing, efficiency, and vehicle categories.

2. Tableau Story Development

A Tableau Story was created to present Electric Vehicle analysis in a step-by-step storytelling format. The story explains important insights from the EV dataset and helps users understand analysis results easily.
