

Ideation Phase

Empathize & Discover

Date	24 June 2026
Team ID	SWTID-2026-5525
Project Name	Visualization Tool for Electric Vehicle Charge and Range Analysis
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to help teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Example:

THINK & FEEL

Which EV gives better performance?

Need price, range and efficiency insights

Need easy EV comparison

HEAR

EV market is growing

Charging network expanding

Analytics helps decisions

SEE

Many EV brands available

Data spread across websites

Difficult manual comparison

SAY & DO

Searches EV details online

Compares price and range

Uses dashboard insights

PAIN

Large EV data complexity

No centralized platform

Manual analysis takes time

GAIN

Interactive EV dashboard

Quick decision making

Easy brand comparison
